

B-PURE

High Pressure Breathing Air Purification Cartridges for Non BAUER Systems

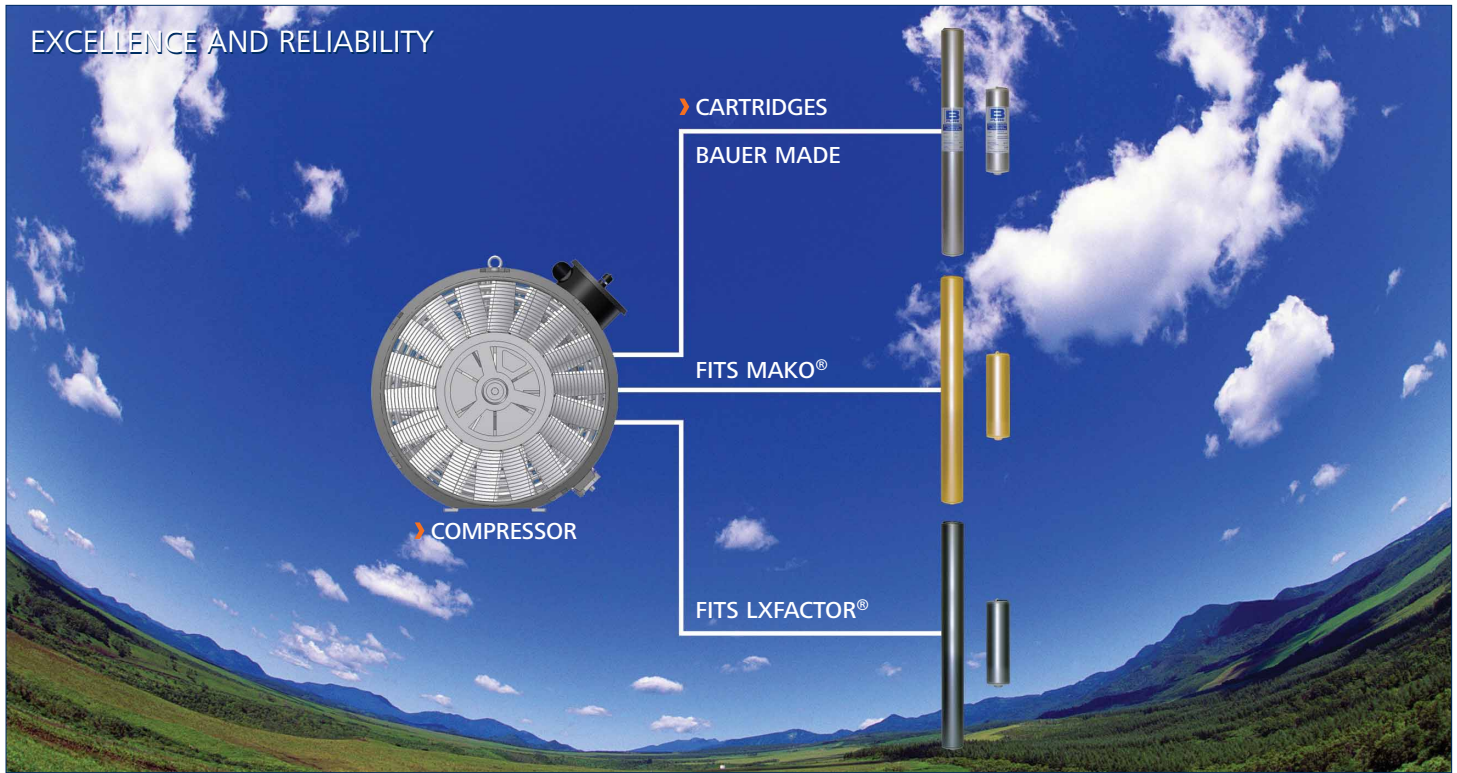

- › **Worldwide Leader**
Compressors
Purification and filtration
- › **Machine Crimping**
End caps to the tube
Eliminates glues/friction welding
- › **High Quality**
Anodized aluminum tube

BAUER offers B-PURE that replaces many low cost brands of lesser quality.

The cartridge tube is high strength anodized aluminum which eliminates the worry of flimsy plastic tubes found on other brands that have been prone to failure. When was the last time you had to tear apart your purification system because a cartridge end-cap came off? Not with B-PURE! How do you get the cartridge out of the purification chamber housing? B-PURE incorporates a stainless steel bale in the top cap which makes cartridge removal a snap.
