

QUICK-CONNECT FILL COUPLING

Safe Filling of Paintball Marker Tanks

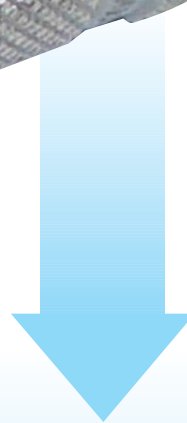

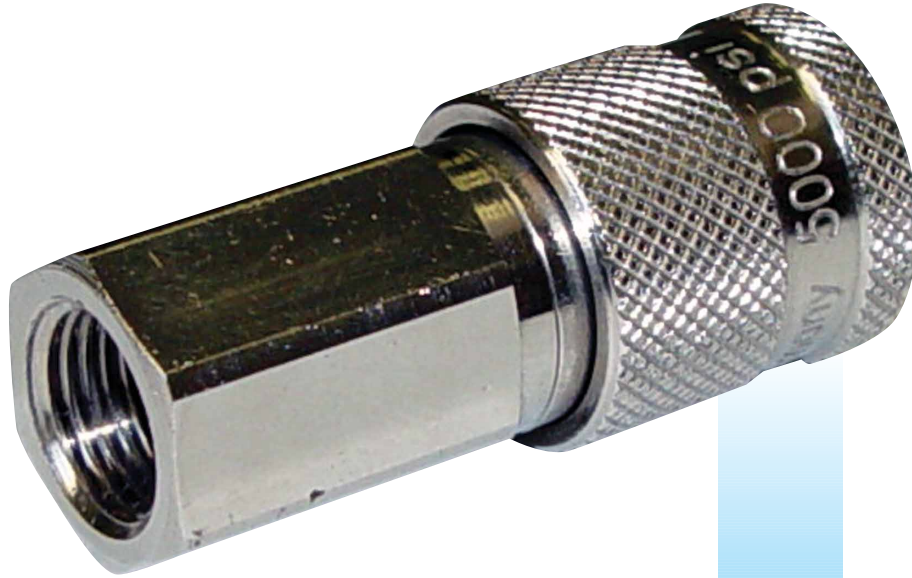

- › **5000 PSI STAMPED WORKING PRESSURE**
- › **INTEGRATED SHUTOFF**
- › **PART NUMBER N26954**

Recommended for all filling applications.

Includes an integrated shutoff valve to prevent hose whip if fill valve is opened without coupling being attached to nipple or if fill hose is not secured. Valve opens automatically when connected to a fill nipple.
