VERTICAL DESIGNS

3, 4 and 5-Stage Compressors

› Pressure
  5000 to 7000 psig
  345 to 483 bar

› Capacity
  3.5 to 22 scfm
  100 to 623 l/min

› Power
  5 to 20 hp
  3.7 to 15 kw

The new Vertical series from the technology leader in high pressure offers space-saving designs suitable for the most demanding requirements. Open models offer a budget conscious practical solution while enclosed models can be installed in occupied spaces. Both styles include a full-featured control system for unattended automatic operation. The vertical series offers the perfect continuous-duty rated solutions for a wide variety of applications.

Vertical Designs

STANDARD SCOPE OF SUPPLY

- Multi-stage, air cooled, pressure lubricated, continuous-duty rated reciprocating compressor
- Electric motor (ODP) with v-belt drive, belt guard and belt tensioning device
- Automatic condensate drain with condensate collector. Collector includes switch for high condensate level.
- Automatic operation with PLC controller. Includes operator keypad and text display for operation, maintenance and troubleshooting
- NEMA 4 rated electrical enclosure with UL listed control panel
- Fused control voltage transformer
- Hour meter and temperature switch
- Pressure sensors for oil pressure and final pressure
- Emergency stop push button
- Audible alarm
- Ambient temperature range 40˚ to 113˚ F
- 24 month warranty

Verticus models

- Interstage pressure gauges
- Sound attenuated enclosure
- MINI VERTICUS: 70 dBA  MAXI VERTICUS: 79 dBA

AVAILABLE ACCESSORIES

- BAUER air purification system with SECURUS
- Interstage pressure gauges (VERTECON only)
- TEFC motor
- Machine feet
- Extended base for compressor and 2 storage cylinders

DIMENSIONS L x W x H inches (mm)

- VERTECON 45 x 32.5 x 55 (1143 x 826 x 1397)
- MINI VERTICUS 49.5 x 29.5 x 58 (1257 x 749 x 1473)
- MAXI VERTICUS 52 x 34 x 65.5 (1321 x 864 x 1664)

WEIGHT pounds (kg)

- VERTECON 550 - 660 (250 - 300)
- MINI VERTICUS 880 - 950 (400 - 432)
- MAXI VERTICUS 1100 - 1225 (500 - 556)

</table>

1) Compressor capacity (FAD) is referenced to standard inlet conditions and 80% of the compressor’s maximum working pressure. Tolerance +/- 5%.
2) Models 15.11 and 18.1 available for 7000 psig.

Dimensions and weight are approximate and are dependent upon model and drive.
